All dimensions are approximate and subject to normal construction variances and tolerances. Square footage exceeds the usable floor area. Each unit consists of the area measured as follows: 9a) Horizontally from the outside face of the glass and/or face of the exterior walls of the building to the center line of the demising partitions and/or the center line of demising partitions separating a unit from corridors, fire stairs, elevators, or other common elements. (b) Vertically from the area enclosed by the unexposed surface of the gypsum board, plaster, or other material forming the ceiling of the story level of the unit with respect to the doors within the unit which open either onto common elements or the exterior of the property. The unit shall be defined by the exposed face of the common element side of each unit.
